In front of the east coast of Africa, at the level of Tanzania, 30 km away from the continent, lies the spice island Zanzibar.

Jambiani is at the south coast of the island, between Paje and Makunduchi, 38 km and about 1 hours driving distance from the airport

The garden captivates with its dimension of 1.500 sqm and its large number of trees. There are coconut trees, Casuarines, Baobab trees, Flamboyant trees, so called because of their flame-red flowers, Golden Shower Tree so called because of its golden flower umbels.
